6/18/08	Case-based presentations	Rich	McGregor
6/25/08	M&M/Faculty Cases		

Journal club

All fellows discuss article in advance (at least 2 days) with Dr. Beddhu.

Major discussed tables and figures should be on transparencies.

Articles should have significant impact.

Basic and clinical sciences articles are encouraged, not reviews or case reports.

Case-based presentations

Each presentation takes about 20 minutes.

Does not have to be elegant or formal.
Reviews focused nephrology topic.

M&M/Faculty cases

M&M cases should be discussed at least 2 days in advance with Dr. Kohan.
HIPAA regulations are followed.
Identifying solutions, as opposed to placing fault, should be emphasized.

Landmark papers

Key papers in a given area discussed.
Papers should be as recent as possible.
Current guidelines should be based on these papers.
Fellows discuss papers at least 2 days in advance with Dr. Beddhu.
Some papers may be found on Fellow's website
Examples:
HEMO study for dialysis dose
IDNT/RENAAL for ARB in DM
Lifton papers identifying Na transporters in hypertension

*Fellows are responsible for making any switches in presentation dates.
Cancellations are not acceptable, except in emergencies or illness.*
