7:00 pm 9:00 pm Tessman Auditorium, SLC Public Library

5/14/2009 Puberty—Teens and Hormones
7:00 pm 9:00 pm Tessman Auditorium, SLC Public Library

The Leonardo's (www.theleonardo.org) Science in Society (S/S) Public Dialogs are held every other month from 7 to 9 pm. The 07-08 year focused on CHOICES and related to risk, chance, luck, etc.; the 08-09 series is on Life – from Beginning to End—and is organized and chaired by Jay Jacobson, Medical Ethics and Humanities—University of Utah and IHC; and Joe Andrade, Director of The Leonardo—Science.

The S/S dialogs are true public dialogs--panelists have 5 to 7 minutes to present their background and perspective--then they respond to public/audience generated questions, inquiries, and statements. The goal is to have a real dialog with the public. Slides and short video segments are often shown. S/S is co-sponsored by The City Library, KCPW, and The Leonardo.

Previous subjects and audio podcasts are at:
